Re: Exemption No. 10482C, Regulatory Docket No. FAA-2000-8190

Dear Sir or Madame:

In accordance with Title 14 of the Code of Federal Regulations (14CFR) § 11.61, Atlas Air, Inc. (Atlas), petitions the Administrator for an extension of Exemption No. 10482C (Docket No. FAA-2000-8190). This exemption is scheduled to expire on March 31, 2022. This exemption will allow Atlas to substitute a qualified and authorized check airman in place of an FAA Inspector to observe a qualifying PIC as specified in FAR 121.4234(c)(1)(ii), subject to certain conditions and limitations.

This petition does not seek to change the conditions and limitations of the current exemption. The conditions and reasons regarding public interest and safety remain unchanged. The renewal of this exemption is not a controversial issue, and granting the requested extension will set no precedents. Accordingly, Atlas requests that a finding of good cause be made for waiving publication in the Federal Register (14 CFR §11.87). Granting the requested relief will set no precedents.

Sincerely,

*Michael A Giordano*
